## MVD HH&C CoP

---

The MVD HH&C CoP is made up of approximately 200 personnel and seven HH&C Sub-CoPs. The CoP and Sub- CoPs duties are to serve the Mississippi Valley Region by managing watersheds, developing collaborative engineering solutions, and promoting knowledge sharing across MVD. They maintain a working knowledge of current guidelines and technical advances related to their subject matter. The HH&C CoP and Sub-CoPs are working to establish and build collaborative relationships within MVD and across USACE to promote the capability of MVD to assist in regional and national efforts.
